Construction Occupation and Class

Do you currently hold or previously held a licence in the ACT?

- No Yes Licence number _____

Please tick box or boxes in the following table to indicate the occupation class or classes relevant to this application and ensure that the appropriate documentation (**including certified copies of qualifications**) is provided to satisfy the eligibility criteria.

Where you are required to provide written evidence of work experience please compile a resume of your work experience (preferably within the last 5 years) listing relevant projects (site details and project description), your role, work performed, time periods, name and contact details of supervisor. Also provide referee reports from licensee's or supervisors to verify your work experience.

Construction Occupation	Occupation Class Including a brief description of construction work that can be undertaken under that class	Brief description of eligibility criteria Note: for detailed information on eligibility criteria refer to Construction Occupations (Licensing) Regulation 2004 and the Qualifications Instrument made under those regulations available on the ACT Legislation Register at the following web address: www.legislation.act.gov.au
Asbestos Assessor	<input type="checkbox"/> Class A Providing asbestos assessment services	<ul style="list-style-type: none"> - Completed or a written undertaking to complete course in asbestos assessment 80806ACT (or an equivalent course); and - University qualification in occupational or industrial hygiene, occupational health and safety, environmental or biological science or a comparable qualification; and - 4 years part time or 2 years full time relevant work experience in performing or supervising asbestos assessment services - Mandatory insurance requirements apply
	<input type="checkbox"/> Class B Undertake field surveys to identify the location, type and condition of asbestos in buildings	<ul style="list-style-type: none"> - Completed or a written undertaking to complete course in asbestos assessment 80806ACT (or an equivalent course); and - Documentary evidence of at least 5 residential and 10 non-residential field surveys done under the supervision of a Class A asbestos assessor - Mandatory insurance requirements apply
Asbestos Removalist	<input type="checkbox"/> Class A Providing an asbestos removal service	<ul style="list-style-type: none"> - Completed or a written undertaking to complete course in asbestos removal and supervision 80804ACT (or an equivalent course); and - Documentary evidence of at least 4 years part time or 2 years full time relevant work experience in friable asbestos removal
	<input type="checkbox"/> Class B Providing an asbestos removal service for bonded asbestos	<ul style="list-style-type: none"> - Completed or a written undertaking to complete course in asbestos removal and supervision 80804ACT (or an equivalent course); and - Documentary evidence of at least 4 years part time or 2 years full time relevant work experience in bonded asbestos removal
Builder	<input type="checkbox"/> Class A Building work (other than specialist building work)	<ul style="list-style-type: none"> - Degree in architecture, civil engineering, structural engineering or building at the level of bachelor degree, graduate certificate, graduate diploma, masters degree or doctoral degree; and - Documentary evidence of at least 2 years relevant building work experience
	<input type="checkbox"/> Class B Building work (other than specialist building work) in relation to a building that is 3 storeys or lower and basic building work	<ul style="list-style-type: none"> - Diploma or advanced diploma in architecture, civil engineering, structural engineering or building; and - Documentary evidence of at least 2 years relevant building work experience

	<input type="checkbox"/> Class C Building work (other than specialist building work) in relation to a building that is 2 storeys or lower and is class 1, 2 or 10a including ancillary structures of 10b and basic building work	<ul style="list-style-type: none"> - Certificate IV in building; and - Documentary evidence of at least 2 years relevant building work experience
	<input type="checkbox"/> Class D Non-structural basic building work (other than specialist building work)	<ul style="list-style-type: none"> - Documentary evidence of at least 3 years relevant building work experience for the type of work to be undertaken under the licence. <p>(note: this class of licence is usually used for applications to do specific types of building work such as shop and office fitouts)</p>
	<input type="checkbox"/> Owner builder Building work (other than specialist building work) in relation to a class 1, 2 or 10 building that is, or is to be, the licensee's main home or ancillary to it	<ul style="list-style-type: none"> - For building work on a class 1 or 2 building either an A, B or C class builder licence or an interstate equivalent or completed an owner-builder course within the last 5 years: or - For building work on a class 10 building either completed an owner-builder course within the last 5 years or demonstrate sufficient building work experience to do the work <p>Note: Applicant must own the land and must not have had an owner builder licence issued for another site within the last 5 years. A building approval must be issued and a copy attached to this application.</p> <p>IMPORTANT: Applicant must also complete the Owner-Builder section at the end of this form.</p>

Building Assessor	<input type="checkbox"/> Class A Providing a building assessment service of energy efficiency from on-site inspection and assessment of building plans, endorsed for the operation of one or more of: <input type="checkbox"/> FirstRate 4 v3.01 <input type="checkbox"/> FirstRate 4 v4.05 <input type="checkbox"/> FirstRate 5 v5 <input type="checkbox"/> BERS Professional v4.1 <input type="checkbox"/> AccuRate v1.1.4.1	<ul style="list-style-type: none"> - Minimum certificate IV qualification in a building, building design, engineering or environmental discipline; or - A current registration under the ACT House Energy Rating Scheme (ACTHERS) that is not lapsed, suspended, cancelled or invalid; or - a current accreditation as a Nationwide House Energy Scheme assessor issued by an Assessor Accrediting Organisation approved under that scheme. <p>And</p> <ul style="list-style-type: none"> - For applicants who do not hold a current ACTHERS registration completion of course 91318NSW Building Thermal Performance Assessment (Residential). <p>And</p> <ul style="list-style-type: none"> - Evidence of completion of training in the operation of in the software application(s) the applicant wishes to be endorsed for <p>And</p> <ul style="list-style-type: none"> - Evidence of competency in BCGSV5001A <i>Assess the construction of domestic scale buildings</i>; and BCGSV5006A <i>Assess construction faults in residential buildings</i>; and BCGSV5015A <i>Assess structural requirements of domestic scale buildings</i>; or equivalent units. <p>And</p> <ul style="list-style-type: none"> - Mandatory professional indemnity insurance requirements apply <p>Note: Applicants applying for endorsement in other versions of software not approved by the Registrar will need to complete the Licence Endorsement section on this form.</p>
	<input type="checkbox"/> Class B Providing a building assessment service of energy efficiency from assessment of building plans, endorsed for the operation of one or more of: <input type="checkbox"/> FirstRate 5 v5 <input type="checkbox"/> BERS Professional v4.1 <input type="checkbox"/> AccuRate v1.1.4.1	<ul style="list-style-type: none"> - Minimum certificate IV qualification in a building, building design, engineering or environmental discipline; or - A current registration under the ACT House Energy Rating Scheme (ACTHERS) that is not lapsed, suspended, cancelled or invalid; or - a current accreditation as a Nationwide House Energy Scheme assessor issued by an Assessor Accrediting Organisation approved under that scheme. <p>And</p> <ul style="list-style-type: none"> - For applicants who do not hold a current ACTHERS registration completion of course 91318NSW Building Thermal Performance Assessment (Residential) <p>And</p> <ul style="list-style-type: none"> - Evidence of completion of training in the operation of in the software application(s) the applicant wishes to be endorsed for <p>And</p> <ul style="list-style-type: none"> - Mandatory professional indemnity insurance requirements apply

Building Surveyor	<input type="checkbox"/> Principal building surveyor Building certification work or, for a corporation, supervision of building certification work	<ul style="list-style-type: none"> - Registration with Engineers Australia in the area of Principal certifier-building (ACT): or - Accreditation as a building surveyor with the Australian Institute of Building Surveyors - Mandatory professional indemnity insurance requirements apply
	<input type="checkbox"/> Principal building surveyor employee Building certification work as an employee of a principal building surveyor	<ul style="list-style-type: none"> - Registration with Engineers Australia in the area of Principal certifier-building (ACT): or - Accreditation as a building surveyor with the Australian Institute of Building Surveyors
	<input type="checkbox"/> General building surveyor Building certification work or, for a corporation, supervision of building certification work, in relation to a building that is 3 storeys or lower and that has a floor area of 2,000m ² or less	<ul style="list-style-type: none"> - Accreditation as "assistant building surveyor" with the Australian Institute of Building Surveyors issued prior to 28 February 2011 or as "building surveyor limited" after 28 February 2011 - Mandatory professional indemnity insurance requirements apply
	<input type="checkbox"/> General building surveyor employee Building certification work in relation to a building that is 3 storeys or lower and that has a floor area of 2,000m ² or less, as an employee of a principal or general building surveyor	<ul style="list-style-type: none"> - Accreditation as "assistant building surveyor" with the Australian Institute of Building Surveyors issued prior to 28 February 2011 or as "building surveyor limited" after 28 February 2011
	<input type="checkbox"/> Principal government building surveyor Building certification work	<ul style="list-style-type: none"> - Registration with Engineers Australia in the area of Principal certifier-building (ACT): or - Accreditation as a building surveyor with the Australian Institute of Building Surveyors
	<input type="checkbox"/> Government building surveyor Building certification work in relation to a building that is 3 storeys or lower and that has a floor area of 2,000m ² or less	<ul style="list-style-type: none"> - Accreditation as assistant building surveyor with the Australian Institute of Building Surveyors

Electrician	<input type="checkbox"/> Unrestricted Electrical wiring work and supervision of electrical wiring work	<ul style="list-style-type: none"> - Certificate III in Electrotechnology Systems Electrician which incorporates a safety systems assessment or equivalent: or - A certificate as a recognised tradesman as an electrical mechanic under the Tradesmans Rights Regulation Act 1946 (C'wth) part 5 plus 12 months wiring experience plus an oral, written or practical examination
	<input type="checkbox"/> Electrotechnology systems permit (Unrestricted) Electrical wiring work under supervision and incidental electrical work	<ul style="list-style-type: none"> - Qualified for unrestricted electricians licence prior to the year 2000 plus an oral, written or practical examination: or - Holds a restricted electrical licence electrotechnology assembly and servicing electrical fitting and has enrolled to complete additional units to meet licensing requirements as a systems electrician plus an oral, written or practical examination: or - A certificate as a recognised tradesman as an electrical mechanic under the Tradesmans Rights Regulation Act 1946 (C'wth) part 5 plus 12 months wiring experience plus an oral, written or practical examination

<input type="checkbox"/> Restricted electrotechnology systems assembly and servicing electrical fitting Electrotechnology assembly and servicing incidental to electrical wiring work in relation to electrical fitting disconnection and reconnection work	<ul style="list-style-type: none"> - Certificate III in Electrotechnology Assembly and Servicing or an equivalent: or - A current restricted electrical licence authorising systems assembly and servicing electrical fitting
<input type="checkbox"/> Restricted electrotechnology systems mechanical fitting Electrotechnology systems incidental to electrical wiring work in relation to mechanical fitting disconnection and reconnection work	<ul style="list-style-type: none"> - Completed the National Restricted Electrical Licensing Modules from a Registered Training Organisation, and completed the National Workplace Performance Module (practical experience logbook) and holds a trade certificate in the mechanical trades other than automotive trades: or - Has a current restricted electrical licence authorising systems mechanical fitting
<input type="checkbox"/> Restricted electrotechnology systems plumbing and gasfitting Electrotechnology systems incidental to electrical wiring work in relation to plumbing and gasfitting disconnection and reconnection work	<ul style="list-style-type: none"> - Completed the National Restricted Electrical Licensing Modules from a Registered Training Organisation, and completed the National Workplace Performance Module (practical experience logbook) and holds a trade certificate in plumbing and gasfitting: or - Has a current restricted electrical licence authorising systems plumbing and gas fitting
<input type="checkbox"/> Restricted electrotechnology systems refrigeration and air conditioning Incidental electrical wiring work in relation to refrigeration and air conditioning disconnection and reconnection work	<ul style="list-style-type: none"> - Completed the National Restricted Electrical Licensing Modules from a Registered Training Organisation, and completed the National Workplace Performance Module (practical experience logbook) and holds a trade certificate in refrigeration and air conditioning: or - Has a current restricted electrical licence authorising systems refrigeration and air conditioning
<input type="checkbox"/> Restricted electrotechnology systems type B gas appliances Incidental electrical wiring work in relation to disconnection and reconnection of type B gas appliances	<ul style="list-style-type: none"> - Completed the National Restricted Electrical Licensing Modules from a Registered Training Organisation and holds accreditation from ACTPLA as a type B Gas Appliance Worker plus completion of restricted electrical licensing logbook or 12 months experience with completion of at least 75% of the electrical licensing logbook: or - Has a current restricted electrical licence authorising systems type B appliance work
<input type="checkbox"/> Electrotechnology systems restricted permit Incidental electrical work under supervision of a licensee with a licence in one of the following classes: <input type="checkbox"/> mechanical fitting <input type="checkbox"/> assembly/servicing electrical fitting <input type="checkbox"/> plumbing and gas fitting <input type="checkbox"/> refrigeration and air conditioning <input type="checkbox"/> Type B gas appliances	<ul style="list-style-type: none"> - Completion of national restricted electrical licensing modules from a Registered Training Organisation and has a trade certificate in mechanical fitting, plumbing and gas fitting, refrigeration and air conditioning or Type B gas appliances (as applicable) and completion of the practical experience logbook and a statement of need from employer or self <p>Note: Logbook for Type B gas appliances needs 75% within 12 months</p>

Drainer	<input type="checkbox"/> Advanced sanitary drainer Sanitary drainage work without supervision	<ul style="list-style-type: none"> - Has a journeyperson licence and certificate IV in plumbing technology or equivalent with pass in Waste Disposal Services II and Plumbing Contracting Technology and statement from licensed employer detailing at least 12 months experience in draining: or - Has an operative drainers licence and certificate IV in Plumbing Technology with pass in Plumbing Contracting Technology, Drainage Theory, Drainage Pipelaying and Drainage Timbering and Shoring and statement from licensed employer detailing at least 12 months experience in draining: or - A reciprocity certificate by a member of ANZRA
	<input type="checkbox"/> Journeyperson drainer Sanitary drainage work under supervision of a licensee with advanced sanitary drainers licence	<ul style="list-style-type: none"> - Certificate of competency from a registered training organisation or a certificate III Plumbing Trade or equivalent and a letter from a registered training organisation indicating successful completion of an apprenticeship: or - A reciprocity certificate by a member of ANZRA
	<input type="checkbox"/> Operative drainer Sanitary drainage work under supervision of a licensee with advanced sanitary drainers licence	<ul style="list-style-type: none"> - A certificate in drainage issued by a registered training organisation: or - A reciprocity certificate by a member of ANZRA

Gasfitters	<input type="checkbox"/> Advanced Gasfitting work, other than LP gas (liquid phase) installation without supervision	<ul style="list-style-type: none"> - Has held a gasfitters licence for at least 12 months and a licensed employer statement indicating at least 12 months experience in natural gas work for pressures above 21 kpa and listing at least 20 installations carried out above the 21 kpa
	<input type="checkbox"/> General Gasfitting work for pressures below 21kPa without supervision and gasfitting work for pressures above 21kPa under the supervision of an advanced gasfitter	<ul style="list-style-type: none"> - Has a journeyperson gasfitter licence and certificate IV in plumbing showing pass in Gas Services II and Plumbing Contracting Technology and a licensed employer statement detailing at least 12 months full-time experience in gasfitting: or - A reciprocity certificate by a member of ANZRA
	<input type="checkbox"/> Journeyperson gasfitter Gasfitting work under the general supervision of a licensee with an advanced gasfitters licence or unrestricted licence	<ul style="list-style-type: none"> - Has a certificate of competency in plumbing issued by a registered training organisation or certified extract of course results from a registered training organisation in Certificate III in Plumbing Trade or equivalent and letter from a registered training organisation indicating successful completion of an apprenticeship: or - A reciprocity certificate by a member of ANZRA
	<input type="checkbox"/> LPG gasfitter (vapour phase) LP gas (vapour phase) installation without supervision	<ul style="list-style-type: none"> - Has a journeyperson gasfitter licence and certificate in LPG restricted installations and/or certified extract of course results from a registered training organisation indicating pass in subjects related to gas services from Certificate IV Plumbing Technology, including Plumbing Contract Technology and a licensed employer statement detailing at least 12 months experience in gasfitting (vapour phase): or - A reciprocity certificate by a member of ANZRA
	<input type="checkbox"/> LPG gasfitter (liquid phase) LP gas (liquid phase) installation without supervision	<ul style="list-style-type: none"> - Holds a LPG gasfitter (vapour phase) licence and a certificate in LPG restricted installations and/or appropriate subjects from certificate IV Plumbing Technology including Plumbing Contract Technology (course results showing pass in subjects relating to gas services) and statement from licensed employer detailing at least 20 supervised installations of vapour phase and at least 5 supervised installations plus 12 months experience in liquid phase storage and capacity in excess of 7.5kl: or - A reciprocity certificate by a member of ANZRA
	<input type="checkbox"/> Restricted automotive – LPG	<ul style="list-style-type: none"> - Certificate or statement of attainment in alternative fuel for vehicles – LPG and of competency in the automotive field

	LP gas fuel installation on motor vehicles	
<input type="checkbox"/>	Restricted automotive – NGV NGV fuel installation on motor vehicles	- Certificate or statement of attainment in alternative fuel for vehicles – NGV or CNG and of competency in the automotive field
<input type="checkbox"/>	Restricted automotive – LPG forklifts Gasfitting for LPG forklifts	- Statement of attainment in forklift LPG gasfitting – restricted and a certificate of competency in the automotive field
<input type="checkbox"/>	Restricted automotive – NGV forklifts Gasfitting for NGV forklifts	- Statement of attainment in Forklift NGV or CNG, gasfitter-restricted and certificate of competency in the automotive field

Plumber	<input type="checkbox"/>	Sanitary plumber Sanitary plumbing work without supervision	- Holds a journeyperson plumber licence and a certificate or partial certificate IV in Plumbing Technology or equivalent with a pass in subjects on Waste Disposal Services II, Water Supply Services II and Plumbing Contracting Technology issued by a registered training organisation and a licensed employer statement detailing a minimum 12 months full time experience in plumbing undertaken while licensed as a journeyperson plumber: or - A reciprocity certificate by a member of ANZRA
	<input type="checkbox"/>	Water supply plumber Water supply plumbing work including fire sprinkler work for class 1 and 2 buildings in relation to pipework of 25mm diameter or less	- Holds a journeyperson plumber licence and a certificate or partial certificate IV in Plumbing Technology or equivalent with pass in subjects Water Supply Services II and Plumbing Contracting Technology issued by a registered training organisation and a statement from a licensed employer detailing a minimum 12months full time experience in each of water services and general plumbing undertaken while licensed as a journeyperson plumber: or - A reciprocity certificate by a member of ANZRA
	<input type="checkbox"/>	Journeyperson plumber Sanitary plumbing work under supervision of licensee with sanitary plumber licence	- A certificate of competency in plumbing issued by a registered training organisation or certified extract of course results from a registered training organisation in certificate III Plumbing Trade or equivalent and letter from registered training organisation indicating successful completion of apprenticeship: or - A reciprocity certificate by a member of ANZRA
	<input type="checkbox"/>	Fire sprinkler fitter Fire sprinkler work and work on a fire hydrant or fire hose connection point	- An appropriate journeyperson licence and a certificate of competency in sprinkler fitting issued by a registered training organisation indicating successful completion of an apprenticeship and a completed Water Supply Services II and Plumbing Contracting Technology subjects from Certificate IV Plumbing Technology and a licensed employer statement detailing 4 years experience in the installation of fire protection/sprinkler systems
	<input type="checkbox"/>	Journeyperson fire sprinkler fitter Fire sprinkler work, and work on a fire hydrant or fire hose connection point, under supervision of licensee with a fire sprinkler fitter licence	- A certificate of competency in Fire Sprinkler Fitting issued by a registered training organisation or course results in Fire Sprinkler Fitting and a letter from a Registered Training Organisation indicating successful completion of an apprenticeship

Plumbing Plan Certifier	<input type="checkbox"/>	Plumbing plan certification work	- Registration with Engineers Australia on the national register in the area of practice of building services and a statement of competency in hydraulic systems from Engineers Australia and demonstrated knowledge of AS/NZS 3500 – Plumbing and Drainage: or - Has a sanitary plumbers licence and an advanced sanitary drainers
--------------------------------	--------------------------	----------------------------------	--

		<p>licence and successful completion of a backflow prevention course and 3 years experience as a sanitary plumber or an advanced sanitary drainer</p> <ul style="list-style-type: none"> - Mandatory insurance requirements apply
--	--	--

Works Assessor	<input type="checkbox"/> Class A works assessor – planning and development Undertaking an exemption assessment under the <i>Planning and Development Act 2007</i>	<ul style="list-style-type: none"> - The applicant holds certification as a Certified Practising Planner by the Planning Institute of Australia; or - Registration by the Institution of Engineers Australia on the national professional engineers register in the area of practice of “principal certifier-building (ACT)”; or - Accreditation as a building surveyor by the Australian Institute of Building Surveyors - Mandatory insurance requirements apply
	<input type="checkbox"/> Class B works assessor – planning and development undertaking an exemption assessment under the <i>Planning and Development Act 2007</i> , in relation to the following: <ul style="list-style-type: none"> (a) site work under the <i>Building Act 2004</i> for a class 1 building or class 10 building or structure; (b) development in relation to a class 1 building or class 10 building or structure, mentioned in the <i>Planning and Development Regulation 2008</i>, schedule 1, other than the following: <ul style="list-style-type: none"> (i) division 1.3.6; (ii) section 1.102 and section 1.103; (iii) section 1.105 to section 1.112 	<ul style="list-style-type: none"> - The applicant is a member of the Planning Institute of Australia - The applicant holds accreditation as an assistant building surveyor by the Australian Institute of Building Surveyors. - Mandatory insurance requirements apply
	<input type="checkbox"/> Works assessor – Unit title Providing, including doing anything incidental to providing, a unit titles assessment report under the <i>Unit Titles Act 2001</i>	<ul style="list-style-type: none"> - The applicant holds registration with the National Engineering Registration Board in the engineering practice of either “civil” or “structural”; or - The applicant holds registration as an Architect with an Architect Board in any Australian jurisdiction; or - The applicant holds registration as a Land Surveyor in any Australian jurisdiction; or - The applicant holds registration as a Registered Landscape Architect with the Australian Institute of Landscape Architects; or - The applicant is eligible for a class A or B Works Assessor – planning and development. - Mandatory insurance requirements apply

Licence Endorsements

Please indicate any endorsements relevant to this application

(note: endorsements are used for specific or specialist work that a licence does not already permit such as Demolition, Swimming Pools or shop and office fitouts. Need to provide documentary evidence of ability, skills, qualification, training, knowledge etc in doing the specific or specialist work)

Prior Convictions

Have you been convicted or found guilty of an offence involving fraud, dishonesty or violence punishable by imprisonment for 1 year or more?

No

Yes
provide details:

Financial Resources

Do you have or have access to financial resources adequate to complete any work that will be authorised under the licence being applied for?

No

Yes
Provide (attach) a letter from your bank, finance provider or accountant regarding your financial resources.

(NOTE: Documents not required for renewals or where the licence class relates to Journey person, Employee, Permit or Owner-builder)

Application Fees

Fees apply to this application and will vary depending on the relevant occupation or occupations. Please refer the ACT Planning and Land Authority "**Fees and Charges Booklet**" available on the ACTPLA website www.actpla.act.gov.au

Applicant Declaration (including owner-builder applicant)

I declare that all the information contained and attached to this application is complete, accurate and true to the best of my knowledge. I understand that there are severe penalties for providing false or misleading information.

Signature _____ Date / / _____

Owner-Builder (additional requirements for owner-builder applications)

Details of building work to be undertaken under the owner-builder licence:

Suburb _____ Section _____ Block _____ Unit _____

Description of building work _____

Building approval issue date _____ / _____ / _____ Name of certifier _____

Owner-builder Questionnaire

Is the applicant an owner of the land where the building work is to be undertaken? No Yes

Has the applicant been issued with an owner-builder licence for other land within the last 5 years? No Yes

Is the building work in relation to the applicant's main home or ancillary to it? No Yes

Owner-builder qualification information

For building work involving a class 1 building either:

I hold a builder licence in the ACT or another state? Licence number _____

OR

I have completed an owner-builder course in the last 5 years I have attached a copy of the certificate

OR

For building work that involves a class 10 building I have provided below (or attached) details of my building work experience:

All other owners of the land where the building work is to be undertaken must authorise this application for an owner-builder licence:

Name of other owner/s	Signature	Date
